

# Leadership for Change

## Workshop Series with Kate Fulton

Leadership for Change is a two day workshop for people who have some responsibility for steering the organization into future, including navigating and responding to people and families in the new individualised context.

The workshop focuses on

- What it takes to develop leaders and exploring your own leadership style
- A way to make sure that through a period of rapid change your organisation has strong and focused leaders to take things forward
- A focus on person centered leadership and achieving results for the people you support
- The opportunity to consider your unique leadership strategy over the next year
- An opportunity to think through the message you give to your staff and the people you support

Kate Fulton has led a range of leadership programs in the UK and in Western Australia including lecturing on the Certificate in Leadership with Lancaster University, UK.
